Que los citados procedimientos se realizaron a camiones de diferentes empresas de logística sobre la Ruta Nacional N° 11 en la provincia de Formosa, ante el control de las encomiendas y su documentación se desprendió que no poseían el respectivo aval aduanero.

Que en este sentido, la Gendarmería Nacional informó que a través de los procedimientos realizados por Acta de Apertura de Encomienda Parte de Contrabando de Importación N° 327/21; por Acta de Apertura de Encomienda Parte de Contrabando de Importación N° 203/21; por Acta de Apertura de Encomienda Parte de Contrabando de Importación N° 223/21 y por Acta de Procedimiento de Apertura de Encomienda Parte de Contrabando de Importación N° 152/21, procedió a incautar la totalidad de los productos, de aparente origen extranjero, con rotulo en ingles y, a su vez, informó que de la consulta en la base de datos del SIFeGA no se obtuvieron coincidencias de productos registrados con esas denominaciones.

Que en el marco de las investigaciones, la Dirección de Fiscalización y Control informó que los productos incautados carecen del etiquetado complementario con la información obligatoria conforme lo establece el Código Alimentario Argentino (CAA), y que los mismos no cuentan con autorización para poder ser comercializados en el territorio argentino.

Que continuando las acciones de gestión, y en virtud que los productos se publicitan y promocionan en línea, el Departamento Vigilancia Sanitaria y Nutricional de los Alimentos del INAL notificó al Programa de Monitoreo y Fiscalización de Publicidad y Promoción de Productos sujetos a Vigilancia Sanitaria a fin de que proceda a evaluar las medidas que considere adoptar.

Que por tratarse de productos que no puede ser identificados en forma fehaciente y clara como producidos,

elaborados y/o fraccionados en un establecimiento determinado, no podrán ser elaborados en ninguna parte del país, ni comercializados ni expendidos en el territorio de la República de acuerdo a lo normado por el Artículo 9° de la Ley 18284.

Que en atención a las circunstancias detalladas y a fin de proteger la salud de los ciudadanos ante el consumo de productos ilegales, toda vez que se trate de suplementos dietarios que carecen de registro, motivo por el cual no pueden garantizarse su trazabilidad, sus condiciones de elaboración, su calidad con adecuados niveles de control bajo las condiciones establecidas por la normativa vigente y su inocuidad, el Departamento de Rectoría en Normativa Alimentaria del INAL recomienda prohibir la comercialización en todo el territorio nacional de los citados alimentos.

Que el señalado procedimiento encuadra en las funciones de fiscalización y control que le corresponde ejercer a la ANMAT, atento a la responsabilidad sanitaria que le cabe con respecto a la población.

Que el INAL y la Coordinación de Sumarios de la ANMAT han tomado la intervención de su competencia.

Que se actúa en ejercicio de las facultades conferidas por el Decreto N° 1490/92 y el Decreto N° 32 de fecha 8 de enero de 2020.
